- Use individually or in group training
- Easy to stack and store, saving floor space
- Safe weight for physical education classes and great for partner work
- One year warranty, excluding punctures
- Option to purchase SandBell empty and save on shipping

“...Our best move is **THE SLAM.**
It's something I don't think
a lot of people are doing.”

-Jeff “Maddog” Madden
University of Texas, Head Strength Coach

Children and Schools

With weights up to 50 lbs. of shifting sand that can be thrown, caught and slammed, the SandBell enables new extremes in performance training. Use like any other free weight, and add amazing grip strength.

Safe for all clients and on any floor surface, while being more challenging and fun. Add slams, throws and catches for a great group dynamic.

Reduces risk of injury when using in combination with other equipment, such as such as stability balls or TRX.

The SandBell is the choice of school districts for **fun and safe weight training tools** used in their physical education programs. From K-12 P.E. classes to high school athletic programs, there is no substitute for this effective tool to **get youth engaged and working**. SandBell in-service training plans and materials are also available.

Neoprene fabric is soft and safe for children and adults, and easy to clean

Sizing marked in pounds and kilograms

Color coded rim to easily identify weight

Ngazzele fill tube enables easy filling and emptying

SandBell sets are available filled direct from Hyperwear or shipped empty to save money on shipping.

FILLING INSTRUCTIONS:

1. Insert funnel in SandBell nozzle
2. Scoop sand from bag with cup
3. Pour sand (8 fl. oz. sand = 1 lb.)
4. Weigh for accuracy
5. Close off nozzle with rubber band at tip
6. Push nozzle into SandBell along interior wall

Play Sand and funnel sold separately.
